Patent No. 6309857

GENERAL INFORMATION:

APPLICANT: Pauli, Benedicht U.

TITLE OF INVENTION: Nucleotide Sequences Encoding Mammalian Calcium
TITLE OF INVENTION: Activated Chloride Channel-Adhesion Molecules
FILE REFRENCE: 18647.0052

CURRENT APPLICATION NUMBER: US/09/193,562D

CURRENT FILING DATE: 1999-11-17

PRIOR APPLICATION NUMBER: US/60/065,922

NUMBER OF SEQ ID NOS: 47

SEQ ID NO 6: 47

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

Farent No. 6109857

GENERAL INFORMATION:

APPLICANT: Pauli, Benedicht U.

ITILE OF INVENTION: Nucleotide Sequences Encoding Mammalian Calcium

ITILE OF INVENTION: Activated Chloride Channel-Adhesion Molecules

FILE REFERENCE: 18617.0052

CURRENT APPLICATION NUMBER: US/09/193,562D

CURRENT APPLICATION NUMBER: US/60/065,922

FRIOR FILING DATE: 1997-11-17

FRIOR FILING DATE: 1997-11-17

SEQ ID NO 27

LENGTH: 3007

ILENGTH: 3007

TYPE: DNA

ORGANISM: Homo sapiens

                                                                                                                                                                                                                                                                                                                                                                                                       Sequence 850, Application US/09016434
Patent No. 650038
GENERAL INFORMATION:
APPLICANT: Janice Au-Young
APPLICANT: Jeffrey J. Sellhamer
TITLE OF INVENTION: COMPOSITION FOR THE DETECTION OF SIGNALING
TITLE OF INVENTION: ADATHWAY GENE EXPRESSION
NUMBER OF SEQUENCES: 1490
CORRESPONDENCE ADDRESS:
ADDRESSEE: INCYTE PHARMACEUTICALS, INC.
STREET: 3174 PORTER DRIVE
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        ö
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 4; Length 1512;
